

## St Andrew's Maths Progression Ladder

We use the NCETM Curriculum Prioritisation materials to teach maths using a mastery approach. This covers the full mathematics national curriculum (except for a few areas detailed below), but priority is given to those areas covered by the ready-to-progress criteria from the DfE guidance. These areas are given more time and appear earlier in the year.

Apart from 'Roman numerals' and 'Constructing and presenting data', all the national curriculum content is included within the key stage. We teach 'Roman numerals' through history, when teaching time, and through continuous provision. Aspects of 'Constructing and presenting data' are addressed in other foundation subjects, where the data handling cycle can be applied in a relevant context, such as in science or geography.

<b>Number and Place Value</b>	<p><b>KS1 Ready to Progress Criteria</b>            Count within 100, forwards and backwards, starting with any number.            Recognise the place value of each digit in two-digit numbers, and compose and decompose two-digit numbers using standard and nonstandard partitioning. Reason about the location of numbers to 20 within the linear number system, including comparing using <math>&lt;</math> <math>&gt;</math> and <math>=</math>            Reason about the location of any two-digit number in the linear number system, including identifying the previous and next multiple of 10.</p>			
	<b>Year 3</b>	<b>Year 4</b>	<b>Year 5</b>	<b>Year 6</b>
	<ul style="list-style-type: none"> <li>Know that 10 tens are equivalent to 1 hundred, and that 100 is 10 times the size of 10; apply this to identify and work out how many 10s there are in other three-digit multiples of 10.</li> <li>Recognise the place value of each digit in three-digit numbers, and compose and decompose three-digit</li> </ul>	<ul style="list-style-type: none"> <li>Know that 10 hundreds are equivalent to 1 thousand, and that 1,000 is 10 times the size of 100; apply this to identify and work out how many 100s there are in other four-digit multiples of 100.</li> <li>Recognise the place value of each digit in four-digit numbers, and compose and decompose four-digit numbers using standard and</li> </ul>	<ul style="list-style-type: none"> <li>Know that 10 tenths are equivalent to 1 one, and that 1 is 10 times the size of 0.1. Know that 100 hundredths are equivalent to 1 one, and that 1 is 100 times the size of 0.01. Know that 10 hundredths are equivalent to 1 tenth, and that 0.1 is 10 times the size of 0.01.</li> <li>Recognise the place value</li> </ul>	<ul style="list-style-type: none"> <li>Understand the relationship between powers of 10 from 1 hundredth to 10 million, and use this to make a given number 10, 100, 1,000, 1 tenth, 1 hundredth or 1 thousandth times the size (multiply and divide by 10, 100 and 1,000).</li> <li>Recognise the place value of each digit in numbers up to 10 million, including decimal</li> </ul>

	<p>numbers using standard and non-standard partitioning.</p> <ul style="list-style-type: none"> <li>Reason about the location of any three-digit number in the linear number system, including identifying the previous and next multiple of 100 and 10.</li> <li>Divide 100 into 2, 4, 5 and 10 equal parts, and read scales/number lines marked in multiples of 100 with 2, 4, 5 and 10 equal parts</li> </ul>	<p>nonstandard partitioning.</p> <ul style="list-style-type: none"> <li>Reason about the location of any four-digit number in the linear number system, including identifying the previous and next multiple of 1,000 and 100, and rounding to the nearest of each.</li> <li>Divide 1,000 into 2, 4, 5 and 10 equal parts, and read scales/number lines marked in multiples of 1,000 with 2, 4, 5 and 10 equal parts.</li> <li>count backwards through zero to include negative numbers.</li> <li>read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.</li> </ul>	<p>of each digit in numbers with up to 2 decimal places, and compose and decompose numbers with up to 2 decimal places using standard and nonstandard partitioning.</p> <ul style="list-style-type: none"> <li>Reason about the location of any number with up to 2 decimals places in the linear number system, including identifying the previous and next multiple of 1 and 0.1 and rounding to the nearest of each.</li> <li>Divide 1 into 2, 4, 5 and 10 equal parts, and read scales/number lines marked in units of 1 with 2, 4, 5 and 10 equal parts.</li> <li>Convert between units of measure, including using common decimals and fractions.</li> <li>Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero</li> </ul>	<p>fractions, and compose and decompose numbers up to 10 million using standard and nonstandard partitioning.</p> <ul style="list-style-type: none"> <li>Reason about the location of any number up to 10 million, including decimal fractions, in the linear number system, and round numbers, as appropriate, including in contexts.</li> <li>Divide powers of 10, from 1 hundredth to 10 million, into 2, 4, 5 and 10 equal parts, and read scales/number lines with labelled intervals divided into 2, 4, 5 and 10 equal parts.</li> </ul>
<p><b>Number facts</b></p>	<p><b>KS1 Ready to Progress Criteria:</b></p> <ul style="list-style-type: none"> <li>Secure Fluency in addition and subtraction facts within 10</li> <li>Count forwards and backwards in multiples of 2, 5 and 10, up to 10 multiples, beginning with any multiple, and count forwards and backwards through the odd numbers.</li> </ul>			
	<p><b>Year 3</b></p>	<p><b>Year 4</b></p>	<p><b>Year 5</b></p>	<p><b>Year 6</b></p>

	<ul style="list-style-type: none"> <li>Secure fluency in addition and subtraction facts that bridge 10.</li> <li>Recall multiplication facts, and corresponding division facts, in the 10, 5, 2, 4 and 8 multiplication tables, and recognise products in these multiplication tables as multiples of the corresponding number.</li> <li>Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 10).</li> </ul>	<ul style="list-style-type: none"> <li>Recall multiplication and division facts up to 12 x 12, and recognise products in multiplication tables as multiples of the corresponding number.</li> <li>Solve division problems, with two-digit dividends and one-digit divisors, which involve remainders, and interpret remainders appropriately according to the context.</li> <li>Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 100)</li> </ul>	<ul style="list-style-type: none"> <li>Secure fluency in multiplication table facts, and corresponding division facts, through continued practice.</li> <li>Apply place-value knowledge to known additive and multiplicative number facts (scaling facts by 1 tenth or 1 hundredth).</li> </ul>	Recall and revisit all number facts throughout the year through daily maths meets and arithmetic lessons on a Friday.
<b>Addition and Subtraction</b>	<b>KS1 Ready to Progress Criteria:</b> <ul style="list-style-type: none"> <li>Compose numbers to 10 from 2 parts, and partition numbers to 10 into parts, including recognising odd and even numbers.</li> <li>Read, write and interpret equations containing addition (+), subtraction (-) and equals (=) symbols, and relate additive expressions and equations to real-life contexts.</li> <li>Add and subtract across 10.</li> <li>Recognise the subtraction structure of 'difference' and answer questions of the form, "How many more...?"</li> <li>Add and subtract within 100 by applying related one-digit addition and subtraction facts: add and subtract only ones or only tens to/from a two digit number</li> <li>Add and subtract within 100 by applying related one-digit addition and subtraction facts: add and subtract any 2 two-digit numbers.</li> </ul>			
	<b>Year 3</b>	<b>Year 4</b>	<b>Year 5</b>	<b>Year 6</b>
	<ul style="list-style-type: none"> <li>Calculate Complements to 100</li> <li>Add and subtract numbers mentally, including: <ul style="list-style-type: none"> <li>a three-digit number and</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>Add and Subtract up to 4-digit numbers using Columnar Methods</li> <li>Estimate and use inverse operations to check answers to a calculation</li> <li>Solve addition and</li> </ul>	<ul style="list-style-type: none"> <li>Add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)</li> </ul>	<ul style="list-style-type: none"> <li>Understand that two numbers can be related additively or multiplicatively, and quantify additive and multiplicative relationships</li> <li>Solve addition and</li> </ul>
