

ART

The Art Curriculum at St. Andrew's has recently had a makeover! This term has seen the introduction of a new Kapow scheme of work which all the children are very excited about! As our new Art Policy states: 'We aim for all children to be inspired by the art and creation that is all around them. Art is a place for children to learn to trust themselves and explore new possibilities'.

Year 3 experimenting with Egyptian imagery in their sketchbooks

'We go in search of our dream' by Fiona Rae

Year 3 have enhanced their Ancient Egyptian topic by exploring the imagery of that fascinating time and will culminate in hand-producing their very own papyrus paper!

Meanwhile, Year 6 have been studying a range of artists from Dutch masters to contemporary creators, evaluating their work and looking particularly at meaning and symbolism through the use of colour, media and composition.

As these examples of work show, the vibrant creativity of the children's abstract art - the use of colours, the ideas, the range of skills - have really impressed and inspired me. Happy Creating all!
